Skills

HTML

CSS

JavaScript

React

TypeScript

Redux

Sass

Styled-components

Next.js

Git

GraphQL

Languages

English - B2

Hobby

I love music, I play piano and guitar. I am also interested in football, new technologies and IT. I also like designing websites and playing video games.

Work experience

Apprentice

2020.05 - 2020.06, Studio art7 sp. z o. o.

This job was my first steps in IT work. I designed a website in **Figma** and built it using **React** with **Gatsby** and **Styled Components**. I learned the basics of **Git**, was introduced to **GraphQL** and developed my **Javascript** skills.

Freelance

2021.01 - 2022.03

After my first attempt at work, I spent several months developing my skills and trying out new technologies. I started creating websites for people. I also worked in IT, assembling PCs and administering Windows servers.

Projects

Portfolio website

2022.08 - 2022.09, github.com/rafalmederak/portfolio-website

I have built a portfolio website where I will post my projects. I used technologies such as: **React, Next.js, Typescript, styled-components, GraphQL, Material-UI, SendGrid**

Bug tracker

2022.10 - present, github.com/rafalmederak/bug-tracker

I'm currently creating a bug tracker project that involves administering users and assigning tasks to them. The main technologies I use are: **React, Typescript, Redux, Sass, Firebase**

Education

Applied Computer Science, Engineer

2021.10 - **present**, WSEI - Wyższa Szkoła Ekonomii i Informatyki, Cracow
